STONEfaçade®

Architectural Stone Cladding System

Nothing says **"Welcome home"** like the warm and inviting look of stone. Take your home's exterior to a new level with CertainTeed STONEfaçade, a manufactured architectural stone veneer that delivers the beauty and craftsmanship of natural stone in an affordable, durable, and easy-to-install panelized system.

STONEfaçade is molded from handpicked stone to blend natural beauty with modern performance, and provide long-lasting beauty that will endure for years to come. No two panels from our manufacturing process look exactly alike.

to ensure the best quality and performance standards!

SAINT-GOBAIN

Moisture management

3/8″ Rainscreen

Our unique rainscreen is built into each panel to allow top-to-bottom drainage that protects walls from moisture build-up, and reduces the potential for moisture-related issues. That's essential because moisture intrusion on the exterior wall is one of the leading reasons for wall assembly failure.

Easy Installation

STONEfaçade installs quickly and cleanly, saving time and money on your installation. The STONEfaçade system includes components designed to work together seamlessly, integrating with new or existing exterior cladding for a beautiful, finished appearance. Unlike traditional stone veneer products STONEfaçade requires no sealing, coating, or mortar.

Panelized

No Mortar

Engineered for Safety

STONEfacade is engineered for peace of mind. With a Class A flame spread classification, it offers exceptional resistance to fire, ensuring that flames do not spread easily across its surface. As a non-combustible material, STONEfacade adds a critical layer of safety to your exterior design—making it a smart and secure choice.

STONEfaçade accessories

The STONEfaçade system includes a complete line of matching accessories to add the perfect finishing touch to your home. See product catalog for dimensions.
